

Weather Day Checklist

Dangerous conditions

Wind Limits

Teammate	Max limit	Gust Limit	Other Notes

Decision Making

Decision making process for dangerous conditions on the ground

Who is looking to make sure jumprun is clear and safe?

How are go/no-go decisions made on the plane?

Lowest ceiling before taking off	
Lowest 4way exit when at altitude	

Weather make up plan

	Option	Action Now	Detail
	Do Nothing	Hope for sun	Be a little sad
	Tentative weather weekend	Choose dates	
	Anticipate and accept reduced jumps over season	Estimate reduction based on local weather patterns	
	Divert money to tunnel	Day of weather or different weekend?	
	Other		

Waiting for weather plan

How often to walk it during normal training? During a meet?

How will teammates communicate if taking a break?

Where will the weather chore list be kept?

Calling it for the day

Who makes the decision? Captain, coach, tribal council, team meteorologist?

What guidelines or cut off times will you have?

Examples: 2 by 2:00pm, less than 2 jumps possible for remainder of day, 80% chance of rain all day
